

Changes in the Budget Process

Bruce Johnson

Director, Office of Management and Budget

City of Alexandria

Agenda Alexandria - September 26, 2005

Preview

- Resolution 2150
- City Actions Currently Underway
- Schedule of Major Budget Events
- Conclusion

- Adopted by City Council on May 2, 2005
- "Whereas"
 - 8 cent real estate tax rate reduction in CY 2005
 - Largest rate reduction in 17 years
 - Alexandria's rate among lowest in N. VA

- "Whereas"
 - Average residential property tax increase still 11.5% in CY 2005
 - Residential real estate taxes have borne an increasing share of the total tax burden

Whereas

- Council stated commitments to
 - Manage growth of expenditures
 - Meet needs of residents and businesses,
 - Maintain competitive compensation for employees
 - Improve effectiveness and efficiency of City government
 - Achieve vision and strategic plan goals and objectives

Whereas

- Budget deliberations reflect balancing of community needs with ability to fund those needs
- More time needed for Council and the community deliberations

- Council directed the City Manager
 - To begin immediately working on the FY 2007 Operating Budget and FY 2007 – 2012 Capital Improvement Program
 - To present to Council at the fall Council Retreat a preliminary budget forecast and outlook

- Preliminary forecast and outlook for
 - Revenues
 - Expenditures needed to maintain current services and policies
 - Requests to fund additional City operating and capital needs
 - Federal and State grants
 - Costs to meet unfunded Federal and State mandates

- Schools requested to provide similar information to Council before the Retreat
- Public Hearing to be held on Oct. 15 before Retreat
- Council will adopt a budget resolution after the Retreat containing two expenditure targets
 - A target for City General Fund growth
 - A target for City funding for School operations

- Schools requested to approve a FY 2007 Operating Budget and CIP program by no later than January 31, 2006
- Schools requested to identify what would be funded at or below the target and what would be funded above the target

- The City Manager has been directed
 - To submit a Proposed Operating Budget and CIP by February 14, 2006
 - To not exceed the targets

- The City Manager also is directed
 - To identify what operating programs and activities and capital projects would be recommended if additional funding were provided above the target and/or
 - To identify what tax rate changes could be enacted with whatever additional revenues might be available above the expenditure target

- City Council shall consider these recommendations and endeavor to enact a budget
 - "that balances the needs of the community with the community's ability to afford meeting those needs"

- On June 2, 2005 City Manager directed City departments to
 - Undertake continuous improvement initiatives
 - Begin FY 2007 budget preparations

- Continuous Improvement Initiatives
 - City staff tasked to identify possible immediate and long-term improvements to City-wide administrative services
 - 140+ suggestions being reviewed

- Continuous Improvement Initiatives
 - Continuous improvement teams established for
 - Personnel classification, recruitment and selection
 - Personnel training
 - Purchasing
 - Facilities management
 - Fleet management

- Continuous Improvement Initiatives
 - Other actions to be examined in areas of
 - Budgeting
 - Accounting
 - Information Technology
 - Citizen Assistance
 - Miscellaneous

- Continuous Improvement Initiatives
 - Contractors engaged to conduct efficiency studies of
 - Fire Department
 - Department of Transportation and Environmental Services
 - Several contractors qualified for upcoming efficiency studies of other departments

- Continuous Improvement Initiative
 - Contractor engaged to assist City in improving performance measurements
 - Restructuring efforts underway to get the right people in the right jobs doing the right things
 - Each department charged with identifying possible departmental process improvements yielding efficiencies and improved effectiveness

- FY 2007 Budget Preparations
 - Identifying savings due to immediate process improvements within each department
 - Identifying low priority programs
 - Identifying potential discretionary supplemental requests
 - Constructing inventory of existing fees and charges for services and identifying potential changes

- Estimating costs to maintain current services and policies
- Evaluating continuing need for previously allocated capital improvement program (CIP) funding
- Prioritizing planned CIP projects
- Developing possible adjustments to funding for planned CIP projects or addition of new CIP projects

- Late March Joint School Board/City Council Work Session on Budget

- Mon. 4/24/06 Council Preliminary Add-Delete Work Session
- Mon. 4/24/06 Council Budget and Tax Rate Adoption

Conclusion

- Resolution 2150 makes fundamental changes by
 - Changing the timing of the budget process
 - Establishing targets in the fall for City and School budget submissions
- Intent is to provide
 - More time for public and Council consideration of the budget
 - More useful information on choices facing the community
 - More flexibility to make the best choices
